Directions:

- 1) For rollers - apply **Autowash 1000** to the roller train. Add 20% water (recommended starting point) to the wash for best lint and glaze removal. Set the wash-up blade and apply an additional amount to flush the ink residues from the roller train. Reapply as needed. A water rinse maybe needed.
- 2) For blankets - apply **Autowash 1000** to a rag and wipe the surface of the blanket until clean. To enable the rag to glide more easily over the blanket surface, simply apply a small amount of water to the rag. This will improve lint and glaze removal. A water rinse maybe needed. Do not apply while blanket is in motion.
