

Product Bulletin

PRISCO® EEZY-KLENE AND EEZY-SCRUB

Product Description: **PRISCO EEZY-KLENE** is a creamy-white emulsion that acts as a rubber deglazer, cleaner and conditioner. It contains plasticizers that help prevent premature hardening of rollers and blankets, while providing deep cleaning action during wash-ups and color changes. **PRISCO EEZY-SCRUB** performs the same function, but contains a mild abrasive for more powerful cleaning.

Advantages:

- Low VOC level: 0.68 lb/gal (81.2 g/l)
- Flashpoint >212° F (>100° C)
- Thorough and deep cleaning of ink rollers
- Improves ink receptivity of ink rollers
- Compatible with EPDM rollers when used as directed

Directions: After cleaning ink off the rollers, apply **PRISCO EEZY-KLENE** or **PRISCO EEZY-SCRUB** along the top of the rollers. Allow the product to run-in for 5 to 6 minutes. Apply roller wash, then set blade and rinse with roller wash. The product should always be removed from the rollers within 1-hour of application. For best results, use a high quality wash that is compatible with with the roller compound you are cleaning. Consult your Prisco representative for specific recommendations.

Product Codes: C551 **EEZY-KLENE** C552 **EEZY-SCRUB**
