PRISCO® BLANKET RESTORER

PRISCO Blanket Restorer is an effective remedy for smashes and other damage that may occur to the printing blanket surface during normal production. Application to the face side of the printing blanket will swell the face compound and restore low spots to their original height. Use of **PRISCO Blanket Restorer** will help reduce downtime and extend blanket life.

Specifications:

- .2 pounds per gallon (.024 kg/L) VOC
- No Flash point

Directions: Apply **PRISCO Blanket Restorer** with a brush to the low spot on the surface of blanket. Leave it on for one minute or less, depending upon the depression in the blanket. After application, wash the blanket with solvent and dry. Next, test the repair by printing ten sheets and then inspect the printed result. If the printed result is unsatisfactory, check the blanket surface to see if the blanket depression has risen. If the low spot is so deep that the fabric or packing under the blanket is compressed, change the packing and fix the blanket from its underside. **DO NOT APPLY WHILE THE BLANKET IS IN MOTION.**

Product Code: H090

READ MSDS BEFORE USING THIS PRODUCT

Packaging: 3oz (89 ml) bottle (12 per case)
