PRISCO® SUPERKLENE™ ROLLER AND BLANKET WASHES

Product Description: **SUPERKLENE** two-step blanket and roller washes are designed for heavy-duty cleaning, especially when making a transition from a darker to a lighter color. Use **SUPERKLENE** when all traces of ink must be removed from press rollers. Several step-one and step-two formulas are available.

Advantages:

- Tough first step wash pulls embedded ink from press rollers and blankets.
- Follow up with non water-miscible Step Two wash to remove cleaning agents and ink quickly and thoroughly and leave the roller train ready to print.
- **SUPERKLENE 1 IC** is our strongest step-one cleaner, while **SUPERKLENE 1 IC Exempt** has no reportable photoreactive compounds.
- **SUPERKLENE 2P** is recommended for strong step-two cleaning, while
- **SUPERKLENE 2C** is somewhat milder and has no reportable photoreactive compounds.
