Directions for UV Washes: For rubber and composition rollers, apply product to top rollers and allow it to "run in" for a short while to loosen deep-down ink and glaze. Set blade. Apply additional wash to flush residue onto blade until blade is clear. For blankets, apply wash with saturated cloth and wipe dry. **UV REL** is fully water miscible. If you are having a linting or glazing problem, add about 20% water to **UV REL** before using as directed. **Do not apply this product by hand while blanket is in motion.**
