

PRISCO® Questar CTP 300 Fountain Concentrate

Product Description:

Questar CTP 300 is a one-step formula designed for use on sheetfed presses equipped with continuous dampening systems running either conventional or UV inks. This product is especially recommended for use with fast-reaction UV inks. Questar CTP 300 has a wide operating latitude and works well with water of a low - medium alkalinity level.

Advantages:

- Produces sharp dots with excellent print quality
- Wide operating latitude and lower water metering speeds
- Economical low-dosage formula
- Prevents plate staining, tinting and toning
- Reduces ink build-up on Metering Rollers

Directions:

Mix 4 to 6 ounces (3 - 4.5%) of Questar CTP 300 per gallon to produce a pH range between 4.4 - 4.9. Once optimum dosage has been determined, measure C.O.W. (Conductivity Over Water) as a reference for future mixing.

Product Code:
HF64

READ SDS BEFORE USING THIS PRODUCT

Packaging:

5-Gallon cube, 30-Gallon drum, 55-Gallon drum (use plastic pumps with drums) and 275-Gallon tote.
