PRISCO® 3551 Plus 2F Fountain Solution Concentrate

Product Description: PRISCO 3551 Plus 2F Fountain Solution Concentrate is a one-step fountain solution concentrate designed for use on sheetfed presses. It combines the latest innovations in fountain technology in an easy to use concentrate. A "universal" non-corrosive formula, its strong buffer system permits use in most water conditions. It is especially effective in eliminating alcohol on continuously dampened presses. This formula meets the FOGRA test criteria of major press manufacturers.

Advantages:

- Non-corrosive formula
- Prevents plate blinding and picture framing
- Buffered for use in all waters
- Effectively eliminates fungus growth
- Eliminates the need for alcohol
- Phosphate-free for less impact on the environment

Directions: Add 5% - 8% PRISCO 3551 Plus 2F to water to obtain a pH range of between 4.6 - 5.2. Once optimum level has been determined, measure conductivity for use as a reference when preparing fresh batches of press-ready fountain solution.

Product Code: HG03

READ MSDS BEFORE USING THIS PRODUCT

Packaging: 25 Liter can
200 Liter drum
1000 Liter IBC container

Note: Plastic pumps are required and are available for 200 liter drums.
