

## PRISCO® Webfount™ 600 Fountain Concentrate

### Product Description:

PRISCO Webfount 600 Fountain Concentrate is a one-step alcohol- eliminating solution designed for use on heatset web offset presses. The product has been formulated to increase press operating latitude with today's printing substrates and ink formulations. Printing plants will see significant measurable increases in productivity due to faster makeready times and reduced unplanned spoilage. In addition, our customers have seen overall quality improvements in their runs after switching to Webfount 600. This formula has broad buffering capabilities making it suitable for most water conditions.

### Advantages:

- Controls calcium related problems such as roller stripping and plate blinding
- Produces lower dot-gain, sharper printing and the ability to decrease ink and water settings
- Minimizes paper piling resulting in less down-time, longer runs between wash cycles
- Prevents plate staining, tinting and toning
- Strong biocide package effectively eliminates fungus growth - cleaner recirculators
- Compatible with catalytic convertors

Product Type	H2O Alkalinity	VOC #/gal (kg/l)	Dosage	pH Range	Product Code
Webfount 600	Low - Med	0.67 (0.08)	5 - 7	3.6 - 4.1	HF80

### Directions:

Mix 5 to 7 ounces (3.7 - 5%) of concentrate per gallon of water. Once optimum dosage has been determined, measure C.O.W. (Conductivity Over Water) as a reference for future mixing.

### Product Code:

**READ SDS BEFORE USING THIS PRODUCT**

HF80

### Packaging:

5-Gallon cube, 30-Gallon drum, 55-Gallon drum (use plastic pumps with drums) and 275-Gallon tote.
