

PRISCO® Webfount™ 575E Fountain Concentrate

Product Description:

PRISCO Webfount 575E Fountain Concentrate is a one-step formula designed for use on high-speed web presses equipped with continuous dampening, conventional, brush, or spray dampening systems. It is suitable for use with water of all alkalinity levels and is formulated to have the wide operating latitude required on today's demanding high-speed gapless web presses. This noncorrosive formula meets the requirements for FOGRA certification by ManRoland web and KBA.

Advantages:

- Controls calcium related problems such as roller stripping and plate blinding
- Eliminates highlight dot loss
- Produces lower dot-gain, sharper printing and the ability to decrease ink and water settings
- Minimizes paper piling resulting in less down-time, longer runs between wash cycles
- Prevents plate staining, tinting and toning
- Strong biocide package effectively eliminates fungus growth - cleaner recirculators

Product Type	H2O Alkalinity	VOC #/gal (kg/l)	Dosage	pH Range	Product Code
Webfount 575E	All	0.94 (0.11)	4 - 7	5.0 - 5.5	HF89

Directions:

Mix 4 to 7 ounces (3 - 5%) of concentrate per gallon of water. Once optimum dosage has been determined, measure C.O.W. (Conductivity Over Water) as a reference for future mixing.

Product Code:

HF89

READ SDS BEFORE USING THIS PRODUCT

Packaging:

5-Gallon cube, 30-Gallon drum, 55-Gallon drum (use plastic pumps with drums) and 275-Gallon tote.
