

Prisco®

PRODUCT INFO

PRISCO® Defoamer-F

Product Description: PRISCO® Defoamer-F is an additive used to reduce the level of foam created in some fountain solution recirculation systems.

Advantages:

- Consistent water quality
- Consistent IPA level
- Reduces maintenance
- Reduces foam efficaciously

Directions:

- Shake well before using!
- Add a capful of **PRISCO Defoamer** to the recirculator reservoir, wait one minute then inspect the result.
- Add an additional capful if necessary to further reduce foam to desired level.

Product Code: HD68
