PRODUCT INFO

PRISCO® Aquacon II™ Water Conditioner

Product Description: PRISCO Aquacon II Water Conditioner is a neutral pH “rehardening” additive to adjust the alkalinity of water produced by a reverse osmosis system (i.e. RO water) before mixing with a PRISCO fountain concentrate. This treated water provides a consistent starting point for fountain solution preparation that facilitates optimum offset printing performance.

Advantages:

- Reduces corrosive properties of RO water
- Stable and consistent water hardness
- Restores a neutral pH value to water

Specifications:

- 27.6 g/l VOC
- Flashpoint > 94°C

Directions: Add 0.5% Aquacon II Water Conditioner to RO water. A water hardness of between 8 to 10°dh will be achieved when used as directed.

Product Code: HF48

READ MSDS BEFORE USING THIS PRODUCT

Packaging: 25-Liter cube
200L drum
1000L IBC container

INT 10/13
