

Prisco®

PRODUCT INFO

PRISCO® PEL BLANKET CONDITIONER

Product Description: PRISCO PEL Blanket Conditioner is a highly concentrated revitalizer and conditioner for use on lithographic offset blankets. PRISCO PEL Blanket Conditioner will keep blankets free of glaze, velvety in texture, and properly receptive to ink to permit quality reproduction and better sheet release.

Advantages:

- Removes glaze, dried ink and paper coating from blankets.
- Conditions rubber blanket surface.
- Restores blanket surface to original velvety texture, to ensure proper ink transfer.
- Minimizes "tacky" blanket problems to maintain better sheet release.

Specifications:

- 895 g/l VOC (Volatile Organic Solvents)
- 62° C Flashpoint

Directions: After thorough cleaning, apply PRISCO PEL Blanket Conditioner to blanket with a clean rag or press towel. Wipe dry with another cloth. Use PRISCO PEL Blanket Conditioner regularly as part of your standard cleaning and preventive maintenance programs. **DO NOT APPLY WHILE THE BLANKET IS IN MOTION.**

Product Code: B804
