

PRISCO® 3621 PLUS 2 Fountain Concentrate

Product Description:

Prisco 3621 PLUS 2 Fountain Concentrate is a one-step formula designed for use on sheet-fed presses. It combines the latest innovations in fountain technology in an easy to use concentrate. It is economical as it was specifically designed to run effectively at low dosage. It is compatible with oil based, Hybrid, UV, HUV, and LED ink technologies. It is especially suited for use with process-less plates.

Advantages:

- Economical – effective at dosages of 2.5 to 7 ounces per gallon
- Buffered for use in Low to Medium water alkalinity
- Compatible with oil based, hybrid, UV, HUV, and LED inks
- Offers a wide operation window with a wide variety of substrate, presses, and plates
- Effectively eliminates fungus growth
- Eliminates the need for alcohol

Directions:

Use 2.5 to 7 ounces (2-5%) of **Prisco 3621 PLUS 2** Fountain Concentrate in each gallon of water. The pH range will be between 4.3 – 4.5 in soft to medium alkalinity water, or PRISCO process water. Once optimum level has been determined, measure conductivity for use as a reference when preparing fresh batches of press-ready fountain solution.

Product Code:
HG72

READ SDS BEFORE USING THIS PRODUCT

Packaging:

5-Gallon Cube (18.925 Liters), 55-Gallon (208 Liters) drum, 275-Gallon (1,040.875 Liters) IBC Tote.

Limited Warranty — The information presented in this document is accurate to the best of our knowledge, however no warranty is expressed or implied other than the quality of the product as described. No recommendation to infringe upon any patented or proprietary procedures is intended. Each user of Prisco products should review this information and these recommendations to determine their relevance and applicability in the specific context in which the products are to be used.
