

PRISCO® E-Cure Classic Wash UV Roller and Blanket Wash

Product Description:

Prisco E-Cure Classic Wash is a strong cleaning moderate drying cleaner for standard UV inks. The product is water miscible to allow for de-linting and de-glazing with the addition of water.

Advantages:

- Water miscible – de-lint and de-glaze during ink removal
- Increase ink receptivity
- Prolongs blanket and roller life
- Environmentally friendly formula – non-photoreactive

Specifications:

- VOC content: 7.53 lb/gal (0.90 Kg/L)
- Flash Point: 150°F (66°C)
- Vapor pressure: 1 mmHg at 20°C

Directions:

- 1) Apply **E-CURE CLASSIC WASH** to top rollers and allow them to “run-in” for a short while to enable it to loosen deep-down ink and glaze
- 2) Set blade
- 3) Apply additional solvent to flush residue onto blade until solvent on blade is clear.
