PRISCO® DISSOLIN PEL Roller and Blanket Wash

Product Description:

PRISCO DISSOLIN PEL is a class A moderate strength slow-drying roller and blanket wash for standard oil based inks. The formula consists of solvents to deeply clean lithographic blankets and rollers. **PRISCO DISSOLIN PEL** is ideal for use with Technotrans Ecoclean. The formula meets the FOGRA test criteria of Manroland and KBA and is certified by Baldwin.

Advantages:

- Increases ink receptivity
- Prolongs blanket and roller life
- Environmentally friendly formula

Specifications:

- V.O.C. Level: 6.58 Lb/Gal (0.79 Kg/L)
- Flash Point: 151° F (66° C)
- Vapor Pressure: 0.587 millibars @ 20° C
- MIR value is 0.7

Directions:

- 1) For rollers, apply **DISSOLIN PEL** to the roller train. Set the wash-up blade and apply an additional amount to flush ink residues from roller train. Reapply as needed.
- 2) For blankets, apply **DISSOLIN PEL** to a rag and wipe the surface of blanket until clean. Do not apply while blanket is in motion.
