

PRISCO® 3600 Plus 2 Fountain Concentrate

Product Description:

PRISCO 3600 Plus 2 Fountain Concentrate is a one-step formula designed for use on a variety of presses, plates, and substrates. It is extremely efficient, even at low dosage. It was meticulously designed to minimize non image piling, and picture framing, while keeping the dampening system rollers clean throughout the press run. It has been formulated to perform well with oil based, hybrid, UV, LED & EB inks. **PRISCO 3600 Plus 2** Fountain Concentrate offers a wide operation latitude of ink/water balance. It is well suited for low to medium water alkalinity.

Advantages:

- Quick and clean starts on Press.
- Wide operational latitude with various substrates.
- Economical - lower dosage required.
- Formulated for Oil based, Hybrid, UV, LED & EB inks
- Effectively eliminates fungus growth
- Eliminates the need for alcohol

Directions:

Use 2.5 to 7.0 ounces (2.0 – 5.2%) of **PRISCO 3600 Plus 2** Fountain Concentrate in each gallon of water. The pH range will be between 4.3 - 4.5. Once optimum dosage has been determined, measure conductivity for use as a reference when preparing fresh batches of press-ready fountain solution.
